

AUTOPRESS BLOOD PRESSURE MONITORS

AUTOPRESS VIDEO

Fully automatic blood pressure monitor

Fully automatic professional blood pressure monitor, measures Systolic Diastolic and Heart rate. It will also print a ticket with measured values along with ideal values (if selected). This machine is ideal for pharmacies and hospitals willing to do a service for their customers, automatically, with no need of wrapping a cuff around the arm or measure with the old fashioned system using a stethoscope and mercury sphygmomanometer.

Measurement system : Oscillometric with proprietary algorithm.

Cuff wrapping system: Automatic with motor and easy unwrapping in case of power black out

Display system: 7 inches monochromatic monitor with graphic board

Inflation system: Fast with 2 rolling pumps

Deflation system: Slow for constant deflation and fast for rapid deflation at end of measurement

Printer: Thermal, fast, 4 lines/second, 24 characters plus graphics

Coin Acceptor: available as an option

Special stand with chair: Available as an option
